

Have a patient with cirrhosis?

Here's 4 things that can help!

1. Give the patient the cirrhosis education handout

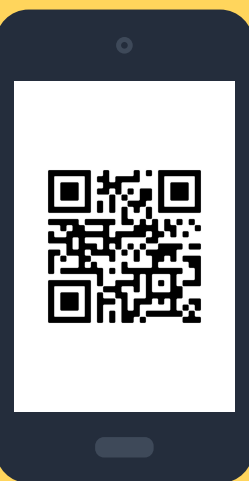

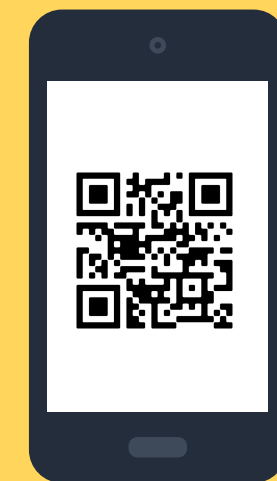

It can be printed or scanned with the QR code!

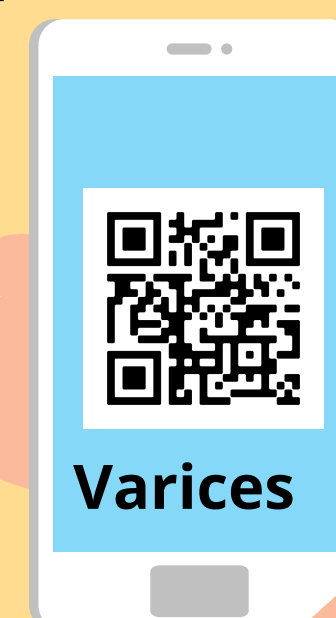

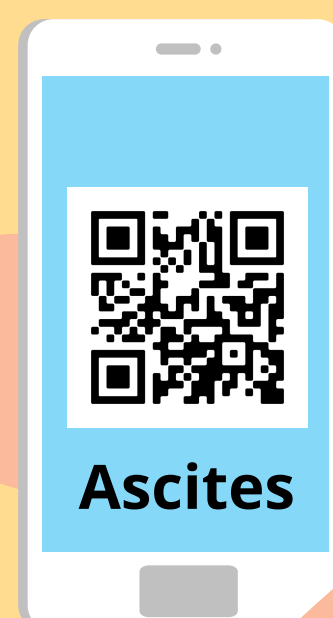

2. Once your patient is well enough to learn, refer them to the following educational videos

- What is cirrhosis
- Living with cirrhosis

3. Depending on their complications, refer them to these additional videos

4. Prescribe education directly to their email inbox!
